Account Type: SB

Karnataka Medical Council CME credits will be applied for.

Dear Colleagues / Post graduates

It gives us immense pleasure to invite you to the live workshop on grossing techniques, to be held in Melaka Manipal Medical College, Manipal, on August 5 & 6, 2017.

Grossing is an integral part of histopathology. It is the first step towards accurate diagnosis, staging of cancer and also provides appropriate predictive and prognostic data. This workshop will provide an opportunity to hone your skills through live demonstration of grossing some usual and unusual specimens encountered in routine practice. This will also help to update your knowledge on clinicopathological guidelines, which are the essential components in the present day of evidence based medicine. Added attractions are a webinar session by our overseas guest faculty on various grossing tips and a brief on the surgeons' expectations of clinically relevant pathology reports.

Manipal, an international university, is included in the world list of universities by QS ranking and has been ranked one of the best among India's private universities. This educational town, with its diverse culture and scenic spots, is a place to add to your bucket list. We welcome the delegates to relish the academic feast and serene beauty.
