# **CME On Grossing Techniques**

**&**

# **Minimal Data Set Reporting In Oncopathology**

**24<sup>th</sup> and 25<sup>th</sup> May, 2019**

**Venue:**

**Prof. Choksi Auditorium, G.J. Block,  
Tata Memorial Hospital, Parel, Mumbai - 400012**

Grossing is an integral part of Surgical Pathology workup and especially in an Oncology set-up, the gross room is a place always buzzing with activity. On this very foundation rests the entire structure of reporting, staging, treatment and prediction of patient outcome. Though often neglected, good grossing is paramount to ensure better patient care.

With the 8<sup>th</sup> AJCC Staging of tumours in practice now, there has been a sea-change in the reporting protocol (especially in certain specialities). To keep abreast with the updates and the evolving time, Minimal Dataset Reporting formats have been developed by specialist pathologists at Tata Memorial Centre after elaborate discussions in their respective Disease Management Groups.

In light of this, the Department of Pathology, Tata Memorial Centre, is pleased to announce “CME on Grossing Techniques and Minimal Data Set Reporting in Oncopathology” which is scheduled to be held on **Friday and Saturday, May 24<sup>th</sup> and 25<sup>th</sup> 2019**, at Tata Memorial Centre, Parel, Mumbai.

This CME will delve into two key areas:

- Uniformity in handling and reporting of oncology specimens
- Providing updates of the changes in the 8<sup>th</sup> AJCC staging system

Postgraduate students as well as practicing Surgical Pathologists will benefit from this program.

We look forward to your participation.
