Solid and Liquid Tumor Hands on FISH workshop
24th and 25th April, 2020

Department of Cytogenetics,
TATA Medical Centre (TMC), Kolkata, in association with
MetaSystems

Workshop Description:

This workshop is hands-on program, designed to provide a basic understanding of FISH techniques as applied to current day diagnosis in pathology. The workshop will familiarize attendees with all the infra-structure, equipments and consumables that are required in the setting-up of a Cytogenetics laboratory for both karyotyping and FISH.

The Workshop will deal with various methodologies of FISH in Haematological malignancies and solid tumors that includes FISH on FFPE specimens, cell blocks and cytology samples. Quality control and issues related to troubleshooting will be discussed.

The work-shop will emphasize on the fact that at the end of this program the attendees should be able to set-up a FISH lab in their departments.

Workshop Size: 16

Note: There will be a selection process based on the filled – up Registration Form details

Registration:
Kindly send completed registration form with a Cheque (at par) / bank DD worth INR 3500/- in favour of “Tata Medical Centre Trust” to be payable at Kolkata. Cheque / DD will be returned to the un-selected delegates.
