Nehru Centre, Doctor Annie Besant Road, Worli, Mumbai

Nehru Centre was conceived in 1972, not as a mute memorial, but as living testament and monument of faith in Jawaharlal Nehru’s vision of man, his compassion for humanity, his concern for human beings and his undying passion to lift them to the greatest and highest purpose. The planetarium was only the first phase of an ambitious memorial that truly reflects the awe-inspiring spirit of a man who meant so much to three generations of Indians and which continues to inspire the present generation.
