REGISTRATION
INFORMATION

Welcome to 1st International PathCon 2024 & 7th BAP Convention in Bangladesh hosted by Bangladesh academy of Pathology. As you embark on this intellectual journey, immerse yourself in the dynamic landscape of Bangladesh's scientific endeavors. From the lush greenery of the countryside to the bustling streets of its vibrant cities, Bangladesh beckons scholars from around the world to explore new frontiers and collaborate in shaping the future of science. Join us in celebrating the greatness of Bangladesh as we unite minds and ignite discoveries that transcend borders and enrich the global scientific community.

Bangladesh Academy of Pathology is dedicated to advancing the field of pathology through education, research, and collaboration. With a commitment to excellence in diagnosing and understanding diseases, the academy serves as a beacon of knowledge and innovation for healthcare professionals nationwide. Through its rigorous training programs and cutting-edge initiatives, the academy plays a vital role in shaping the future of healthcare in Bangladesh and beyond.

The advancement of contemporary molecular techniques has significantly refined the processes involved in disease diagnosis and management, facilitating a more precise and personalized approach. Concurrently, this evolution extends the purview of histopathology, as it enables the observation of a myriad of molecular alterations in tandem under microscopic scrutiny. Our aim is to pioneer the trajectory of pathology, fortifying the nexus between tissue pathology and molecular dynamics to unprecedented levels, thereby charting a course towards the future of diagnostic medicine.
