

## INVITATION

Cytopathology today is an established, essential and routine part of training and practice in Pathology. The scope of FNAC is ever increasing with radiological assisted techniques and intraoperative cytology becoming part of the routine Cytopathology work.

This CME in Cytopathology to be conducted under the auspices of the Teaching Pathologists Conference, Mumbai, aims to reinforce and add to the knowledge of Cytopathology. The faculty comprises experienced Cytopathologists who will speak from their years of experience. There will be an exciting array of slide seminars too. This CME should be beneficial to both the postgraduates as well as practising Pathologists.
